A White Coalition—and War?

PRESIDENT ROOSEVELT'S speech at Chicago Tuesday attacking war-inclined nations and calling for "concerted" action for world peace brings profound results Wednesday.

The League of Nations—mainly Britain and France—which had taken as bold a stand against aggressor nations as it felt able to do with Germany and Italy in a secret pow-wow and no definite assurance from the United States, considers that through Mr. Roosevelt America has finally spoken.

The League, therefore, this day has given Japan notice that unless she agrees to arbitrate her war with China she will probably face the naval guns of nine white powers, including the United States.

War is just that close to us this moment.

Bobcats to Leave for DeQueen Game at 5 on Thursday

Missouri Pacific Bus Will Take Them to Leopards' Stomping-Ground

SPECIAL UNCERTAIN

Revamped Lineup Thursday Will Include Masters at Halfback

BULLETIN
Miss Beryl Henry, superintendent of Hope schools, announced at 3:25 p. m. Wednesday that efforts to obtain special train to DeQueen for Bobcat-Leopard game Thursday night had proven futile.

Coach Foy Hammons announced Wednesday afternoon that the Hope High School football team would leave here at 5 p. m. Thursday aboard a Missouri Pacific bus for DeQueen where the Bobcats will engage the Leopards Thursday night.

The game at DeQueen will start at 8 o'clock.
The Bobcat coach said plans for a special train were uncertain, but "I'll try to arrange for one for the Jonesboro game next week."

Hammons announced a shake-up in the lineup that sends Woodrow Parsons from a halfback post to a guard position, replacing Johnny Wilson who has been moved over to a tackle berth, replacing Big Freeman Stone.

Stone has been shifted to the backfield and will run from the fullback post against DeQueen. Joe Eason, regular fullback, is still nursing an injured foot and probably will see no action against the Leopards.

Despite the injured foot, Eason played last week against Smackover, but was handicapped throughout the game.

Probable Lineup
The probable starting backfield will be:

Bright at quarter, Asim and Masters at halfback posts, and Stone at fullback. Coach Hammons said that Stone had been showing up well in practice and will be used to hammer the line, punt and to furnish interference on end runs.

In the line will be Jewell at center, Parsons and Keith at guards, Johnny Wilson or Major Simpson at one tackle, Grady Quimby at the other tackle, and Reese and Ramsey at the end posts.

Ramsey suffered a gash on the lip in practice Tuesday afternoon when he ran against a barbed wire fence, but will be in the starting lineup against the Leopards.

Bearden Showing Well
Hammons said that Leonard Bearden would probably see action in the backfield. Bearden, the coach said, has been showing up well this week. The Bobcats will polish off with signal drills Thursday afternoon.

"The team is in pretty good shape with the exception of Eason. They are ready for a hard battle and they expect to redeem themselves for last year's defeat by the Leopards," Hammons said.

Hope fans may avoid confusion and delay at the entrance gates of the DeQueen stadium by purchasing their tickets here at Hope Confectionery, the only place they are on sale.

Students may obtain their tickets at the high school.

Coach Hammons said he had been informed that roads to DeQueen were in good condition. The distance is 62½ miles there.

A Thought

Man never fastened one end of a chain around the neck of his brother that God did not fasten the other end around the neck of the oppressor. Lamartine.

CRANIUM CRACKERS

1. Crossword puzzle fans should have no trouble finding five four-letter words ending in "b."
2. What states border on the Great Lakes?

3. Edward VIII of England, now Duke of Windsor, was sovereign for 15 days; 7 months; 21 days; 326 days; one year; 3 months; 8 days; not at all.

4. The letters of a certain word may spell hurt to some but it's still ketles to the housewife.
5. How many number are found on the faces of most watches.

Coroner's Verdict in Beatty Case Is Again Postponed

10 Witnesses Heard Tuesday, Verdict Is Put Off to Saturday

LAST SEEN FRIDAY

Officers Still Hold Theory He Was Killed and Thrown in Creek

A Hempstead coroner's jury investigating the mysterious death of Ed Beatty, 68, Emmet farmer, deferred its verdict Tuesday afternoon until 9 a. m. Saturday after 10 persons testified, including 12-year-old Hollis Calhoun who first discovered the body in a shallow creek near Emmet.

The 10 persons who testified at an inquest at Hope city hall were Arthur Dougan, Homer Eubanks, Bert Smith, Lewis Alwhite, Henry Willett, R. D. Smith, Will Brown, Ross Fee and Hollis Calhoun, all of near Emmet, and R. V. Henderson, Jr., Hope undertaker.

The inquest was conducted by Coroner J. H. Weaver and Deputy Prosecutor W. S. Atkins. The hearing was held in the municipal court room and attracted an overflowing crowd.

Of the 10 that testified, none said they knew the whereabouts of Beatty after 8 a. m. Friday. The body was found at 3:30 p. m. Sunday. Coroner Weaver said it was his belief that Beatty had not been dead more than six or seven hours when the body was found.

Henderson told of the condition of the body and described wounds on the face, nose and lip which he said he believed were caused by the sharp edge of some instrument.

Several of those who testified said they found Beatty's hat, a whisky bottle, syrup bucket and a paper sack near the creek bank, but said there was no indication of a scuffle near where the body was found.

"There had been no arrests Wednesday, but officers clung to their original theory that it was a case of murder."

The coroner's jury was composed of Joe Rider, Elbert Tarpley, Hugh Garner, John Laha, E. S. Jones, W. Y. Cobb, Will Palmer, Will Thompson, J. C. Cox, Lewis Townsend, Wallace Cook and J. C. Burke, Jr.

Boy Finds Body
Hollis Calhoun, 12, son of Albert Calhoun, was the first to take the witness stand. Young Calhoun said that he had known Beatty about a year. He couldn't remember the last time he saw Beatty alive. He told of finding the body at 3:30 p. m. Sunday in a creek about a half mile from the home of Arthur Dougan, his brother-in-law.

"I stopped on a bridge to see if the water was up, looked down the creek and saw a man's body in the water. I didn't take time to go near the body, but ran to the home of Arthur Dougan and told him what I had seen."

The youngest of them told a story about Beatty coming to the Dougan home on Thursday and "ran some negroes off the place." He said he didn't know just what the trouble was about—between Beatty and the negroes.

Young Calhoun said that he returned to the scene of the body with his brother-in-law, Arthur Dougan, where they found a paper sack, syrup bucket and Beatty's hat on the bank.

Arthur Dougan
Arthur Dougan was the second witness. His testimony:

"I live two and a half miles from Emmet. I have lived on present farm since last December. I have known Ed Beatty since I was a boy. Beatty lived with first one neighbor and then another. I last saw him about 6:30 a. m. Friday. He was at my home. The next time I saw him was at the creek, dead."

"I don't know of any particular trouble between Beatty and any other person or persons. Beatty did run some negroes off my place Thursday night—and at that time he cussed me and my wife because I tried to get him to let the negroes alone as they were picking cotton for me."

"The negroes were Ella Stewart and her four children. They still live near Emmet. I first learned of Beatty's death when my nephew, Hollis Calhoun reported he had seen the body of a man in the creek. I returned to the creek with Hollis, found the body, his hat, paper sack and bucket on the bank. I examined the banks, but found no footprints or indication of a scuffle. Beatty reserved a room in my home to keep some of his belongings, but never has spent the night there. Last Thursday night he slept, I believe in a house near my home where Beatty has a bed and cook-stove."

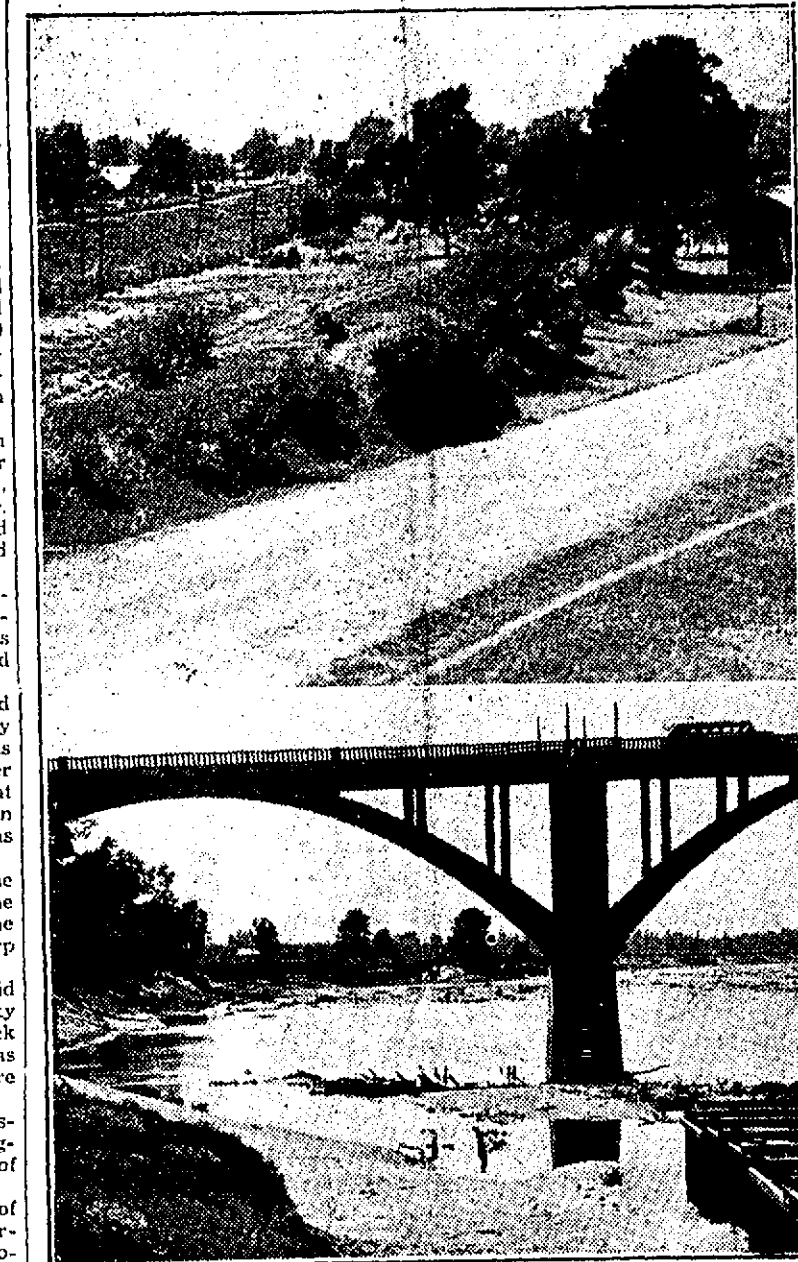

"I saw him early the next morning—Friday morning—but never saw or heard of him again until his body was found in the creek," Dougan concluded.

Homer Eubanks, the third witness: "I rented my farm from Ed Beatty. He reserves a room in my home to

Hempstead County Scenes Markers Will Commemorate

Star Photos Reprinted From The Centennial Edition of June 26, 1936

HISTORIC RED RIVER CROSSING AT FULTON—In the top picture that low ridge of brush in the foreground is the old dump of the Cairo & Fulton railroad, predecessor of the Missouri Pacific, whose present line appears in the background, on the outskirts of Fulton. Bottom picture shows the new highway bridge spanning Red river at Fulton—those stakes projecting from the river-bed in the foreground are remnants of the original ferry landing on this great trail to the Southwest.

OLD TAVERN—This is the original tavern at Washington, still standing, where pioneer guests put up on their way to the Texas Southwest.

OLD CAPITAL—Original courthouse and war-time state capital at Washington.

Negro Dies in Collapse of Baton Rouge Ditch

BATON ROUGE, La.—(AP)—The collapse of the side of a ditch in front of an annex being built next to the state capital buried four negro workmen Wednesday under a cascade of heavy mud.

One of the diggers was pronounced dead after firemen had worked 25 minutes trying to revive him. Another went to a hospital.

Two Killed in Boiler Blast Aboard Steamer

NEW YORK.—(AP)—Two men were killed and three seriously scalded when the boiler of the S. S. Brazos exploded Wednesday.

Museums in Rome, London and the United States have bought many of the oil paintings of Percy Crosby, a comic strip artist.

Unveiling Sunday for Hempstead's History Markers

Two Will Commemorate Washington, and One the Town of Fulton

SERVICE AT 3 P. M.

Speakers and Band Concert at Washington Sunday Afternoon

Acceptance in behalf of Hempstead county of three historical markers from the Arkansas Centennial Commission, two to be placed at Washington and one at Fulton, will be made with a formal program at 3 o'clock this Sunday afternoon, October 10, at Washington.

The program, interspersed with music by the Hope Band, is announced by Mrs. Charlean Moss Williams of Washington, county Centennial chairman, as follows:

The Program
Invocation, Dr. J. C. Williams. Arkansas (chorus), High School Students.

Presentation Speech, William McComb. Acceptance Speech, Mayor Deloney, Washington; J. B. Shults, Fulton.

Address (Historic Sketch), Hon. E. F. McFadden. Poem (The Old State Capitol), Mrs. Rosa Polk Shipley.

Hempstead County Press, A. H. Washburn. Soldiers Chorus from Faust, High School Band.

The Inscriptions

The inscriptions on the three markers will be:

First—
"Hempstead County—The Town of Fulton: Fulton on Red river is the point of crossing of the Great Southwest Trail. Later the old military road and the Missouri Pacific railway crossed here. It was a U. S. frontier town prior to the annexation of Texas. A town was laid off here in 1820 by Moses Austin and his son Stephen, founders of Texas, as a base of supplies of this Texas Colony. In 1840 the town was laid off in lots and squares by Edward Cross, Grandison D. Royston, David T. Witter and Ross-well Beebe."

Second—
"Hempstead County—Old Washington: Rendezvous for Arkansas troops on their way to the war with Mexico. Many of our leading citizens claim this old town as their birthplace."

Third—
Hempstead County—Old Courthouse: This first courthouse of Hempstead county located in Washington is known as the war-time state capital because it was the seat of the state government during the federal occupation of Little Rock. The county was named in honor of Edward Hempstead, first delegate in congress from Missouri Territory."

California's state flag having the figure of a bear, originated in an attempt to set up a republic in 1846.

MIND Your MANNERS

Test your knowledge of correct social usage by answering the following questions, then checking against the authoritative answers below:

1. When addressing an envelope to a man and his wife is it correct to use "Mr. and Mrs." or "Mr. and Mrs. X" in place of "and"?
2. Is it permissible to ask a hostess if one may bring a man whom she does not know to a dance?

3. Is it correct to ask to bring someone whom the hostess knows to the dance?
4. Is it permissible for a man to keep cutting in on the same man as he dances with different partners?

5. If a girl is sitting out a dance with a man away from the dance floor, is it all right for someone to ask her to dance?

What would you do if—
You are a girl who has refused to dance with a man with whom you dislike to dance and yet you do not have the dance taken?

(a) Escape to the dressing room until the number is over?
(b) Accept the invitation of the next man who asks you?

(c) Join a group of friends who are not dancing and explain why you are there?

Answers
1. No.
2. Yes.
3. No. She would have invited him in the first place if she had wanted him.
4. No.
5. No.
Best "What Would You Do?" solution (a).

Bulletins

SINGAPORE, Malay Straits.—(AP)—Three members of the crew of a KLM Royal Dutch Airways plane and one passenger were killed Wednesday when the craft crashed near Palembang, Sumatra.

WASHINGTON.—(AP)—It costs exactly 28.6 per cent more to feed a family now than it did five years ago, the Department of Labor said Wednesday.

NEW YORK.—(AP)—Walter Case, president of Case, Pomeroy & Co., well known Wall Street investment company, died in a fall from a window of the firm's office on the 28th floor, it was announced at the office of the firm Wednesday.

Special Congress Likely November

Roosevelt Will Decide This Week—Court Proposal Is Indefinite

HYDE PARK, N. Y.—(AP)—President Roosevelt strongly indicated Wednesday he would call a special session of congress to convene between November 8 and 16, but said he would reserve his decision until after conferences in Washington this week.

He said it was a little premature to say whether court reorganization would be included in his program.

It is neither in nor out—was the way he put it.

He placed at the top of his program: Wages and hours, surplus crop control, government reorganization, and regional planning.

Stand Rights for Fair Are on Sale

Merchants May Obtain Them at Offices of Chamber of Commerce

Stand rights at the Merchants & Farmers Fair to be held at Fair Park October 21-23 may be obtained by contacting Captain (Happy) Harris at the chamber of commerce office, at the city hall.

Captain Harris said local residents would be given preference of concessions, but asked that they make applications at once.

Yankees Blast 4 Pitchers to Win

Yankees Score 8 to 1 Victory in First Game of World Series

YANKEE STADIUM, N. Y.—The New York Yankees turned on their power in the first game of the world series here Wednesday to blast four New York Giant pitchers for an 8 to 1 victory.

Lefty Vernon Gomez hurled the opener for the Yankees and limited the Giants to six hits.

The four Giant pitchers were Carl Hubbell, Harry Gumbert, Dick Kauffman and Al Smith. Hubbell started and pitched good ball until the sixth inning when he was blown off the mound by seven runs.

He was followed by Gumbert, Kauffman and Smith. Tony Lazzeri, Yankee second baseman, paced the hitting attack, getting a single in the sixth and a home run over the left field fence in the eighth inning for the Yankees' final run.

Lazzeri's homer came with the bases empty and was the only homer of the opening game.

Score by Innings
R H E
Giants 0 0 1 0 0 0 0 0 1 6 1
Yankees 0 0 0 0 7 0 1 x 8 7 0

CIO Wins First Test in Election

Mayorality Candidate Defeats AFL's Man in Detroit Voting

DETROIT, Mich.—(AP)—The Committee for Industrial Organization (CIO), successful in nominating candidates for mayor and councilmen in Tuesday's non-partisan primary, claimed a "substantial victory" Wednesday in its first major political campaign.

The CIO candidates did not lead the field, but their mayorality candidate, Patrick O'Brien, former Democratic state attorney general, beat John W. Smith, present head of the city council, who was endorsed by the American Federation of Labor.

League Threatens 9-Power Pact; U.S. May Be Involved

White Powers Seriously Considering Forcing Hand of Japanese

ROOSEVELT SPEECH

U. S. President's Words on Peace Stir War-Frightened World

GENEVA, Switzerland.—(AP)—The League of Nations warned Japan Wednesday of a possibility of international action unless she agrees to a peaceful nine-power settlement of the China conflict.

By the Associated Press
A world fearful of wide-spread war looked Wednesday upon President Roosevelt's intimation that the United States is prepared to take active steps for peace, both as a menace and a benefaction.

Mr. Roosevelt's condemnation of aggression drew from Japan a refusal to halt her military machine in China in deference to world opinion.

The German foreign office warned the president to remember the "shipwreck" of President Wilson when he sought to safeguard peace through the League of Nations.

Tow capitals, Madrid and Nanking, that are fighting enemies on opposite sides of the world, viewed the president's words as threats to their foes.

Britain's ministers weighed emergency measures to curb the growing danger of world war on either side of the earth, with President Roosevelt's call for action against military aggression being interpreted as involving British co-operation in the Far East.

Japs Reported Checked
SHANGHAI, China.—(AP)—The Japanese advance on all China fronts, from Shanghai to the Far North, was reported Wednesday to have been halted by a stiffened Chinese resistance.

Roof to Be Raised at the City Plant

Total Expenditure of \$12,-500 Authorized by Hope City Council

The city council, in a short session Tuesday night, passed an ordinance calling for construction of a new high roof and to make other repairs at the municipal water and light plant.

The total expense is not to exceed more than \$12,500.

F. N. Porter was employed as architect. Contract for this construction will be let to the lowest bidder.

Sealed bids will be received by the Board of Public Affairs up to 10 a. m. October 13. At that time the bids will be opened in the council room at Hope city hall and the contract let, if a satisfactory bid is received.

The council granted Howard Houston a permit to build a side walk on city property near his store, the cost to be paid by Houston.

The council authorized City Treasurer Charles Reynerson to destroy all warrants and bills dating back of the year 1933.

The filing of routine reports concluded the meeting, which adjourned at 8 o'clock.

Freight Rates to Follow Pay Hike

Rail Expert Thinks Carriers Will Be Protected Against Loss

WELLESLEY, Mass.—(AP)—An investment expert predicted Tuesday night the nation's railroads would be given increase in freight rates that "may entirely, or at least largely, offset wage increases."

H. C. Baldwin of Boston, in an address at the 24th annual national business conference at Babson Park, said the decision would come "this month and in time will be reflected in the last quarter earnings of railroads."

"Thus while we are not bullish on rail stocks for a long pull," he said, "due to increase in government regulation and the growing tendency to government ownership, rail stocks are at present oversold."

Cotton

NEW ORLEANS.—(AP)—October cotton opened Wednesday at \$2.25 and closed at \$1.18 bid.

Spot cotton closed steady 14 points lower, middling \$1.10.

We Can Quit Fueling Orient's War Engine

THE Japanese bombing of 20 Chinese cities represents in its purest form a new and frightening principle of warfare.

These cities were not primarily military strongholds. The raids failed to damage any forts, airports or factories. Most of the victims were humble folk, huddled in pitiful refugee camps. By no stretch of the imagination could they be considered obstacles to Japan's conquest.

The attack could give Japan no conceivable military advantage; its sole aim was to make war so horrible for non-combatants that the nation's willingness to resist invasion would be broken.

And this casual acceptance by the Japanese general staff of the idea that wars can be won by applied frightfulness leads us to a warning sounded by Pearl Buck in the current issue of Asia Magazine.

MRS. BUCK remarks that the orient lacks all of those restraining notions about the value of human life which, through the centuries, we have built up in the west. Life is not sacred, in the Far East; people are crowded together too closely, getting a living is too much a grim struggle, death is too familiar a specter. The oriental simply does not look at death as we look at it.

To this oriental, continues Mrs. Buck, the western world has given the most terrible of weapons. It has armed, and armed to the teeth, a people who have no moral or sentimental restraint whatever against using its weapons to the very limit of their power. And, says Mrs. Buck:

"To have the means of death in one's hands with no fear of death in one's heart is the ultimate of terror, not only for those who are actually engaged in such warfare, but for everybody alive. This combination of orient and occident, spreading worldwide, would be the end not only to all civilization, but to all physical human life."

IT MAY make, then, very little difference—as far as our western world is concerned—whether Japan or China wins the present war. In either case, the victor will, as Mrs. Buck says, be "flushed with a fresh and horrible confidence in the ruthlessness of his heart and the gun in his hand."

For the world has at last brought itself to this pass; it has put the means of unlimited destruction in the hands of people who can have no qualms whatever about using them.

It is a dark and frightening picture. It may be that it is already too late for us to "do anything about it"; but we might, at the very least, give some thought to the advisability of immediately stopping the sale of munitions to either side in the conflict.

Just An Everyday Occurrence

doesn't hurt a boy to know just how rotten the world can be."

But I said, "Yes, your Don may be able to take it and leave it, but you know very well that this sort of trip will weigh heavily with a terrible number of boys who are too anxious to gloat. When they see in print the very things they are secretly dwelling on anyway, they sense a permission to pursue their own way. No wonder sex crimes against children are growing and we are afraid to trust them out of our sight."

Why don't cities, who go on vice raids, demand that these lewd publications be put to an end once and for all?

Insidious Evil
I am not talking about the frank magazine that holds up crime as a target, and recites cases to show that

it does not pay, but the sly insidious publication that gets its poison in often under the most disarming of titles and camouflaged by innocent enough context to fool the reader until he strikes the vicious passages.

It is all very well to say, "Watch your children's reading," but with such literature everywhere available, parents are helpless. But not quite. And it is not the children alone who feed on such truck. Old men, middle aged men, and the general public are being excited to crime. Yes, something should be done.

Experience gained by operating autogiros in shuttle mail service may be used as a guide to future developments of passenger-carrying autogiros in short range shuttle services.

A Book a Day

By Bruce Catton

How Radium Magic Linked Four Lives

When a 28-year-old Polish woman noticed two images on a photograph plate while working in her Paris laboratory, her piqued curiosity led to the discovery of an ultra-precious substance that amazed science with its wondrous properties, brought exultation to the avocaries and hope to the cancer-ridden.

In understandable, lay terms, Rudolf Brunngraber tells the story of the discovery of radium, describes its wonders, and thereby lays the foundation for an interesting novel—"Radium"

OUT OF THE NIGHT

BY MARION WHITE

CAPT OF CHARACTERS
FRANCES PIERCE—heroine, young woman attorney.
AMY KERR—Cilly's roommate and murderer's victim.
JIM KERRIGAN—Cilly's fiancé.
LEAHY HUGHES—Amy's strange visitor.
SERGEANT DOLAN—officer assigned to solve the murder of Amy Kerr.

Yesterday, Cilly looks down from the roof and is shocked to see that Mr. Hunter, paralyzed for years, walks about with ease in his own bedroom!

CHAPTER XIX
RETURNING to her apartment after breakfast Wednesday morning, Cilly met Detective Martin in the hall.

"Good morning, Miss Pierce," he greeted. "I've just been through the house. Dolan wants everyone down at police headquarters this morning at 10:30."

"Very well, I'll be there," Cilly assured him. She decided that she would be there at 10 o'clock to inform the sergeant of her latest discovery. He had ruled Mr. Hunter out as a possibility because of the man's physical incapacity.

This morning, however, Hunter loomed in Cilly's mind as a very important possibility. Why would a man deliberately tie himself to a wheel-chair when he was well able to walk?

Later, however, when a burly policeman had ushered her into a private room at police headquarters, she discovered she would have no opportunity to see the sergeant alone. Several of the Bayview tenants had arrived before her. They sat in a semicircle around a plain flat top desk, nervously expectant. She recognized the Downeys; so obviously mother and daughter. Mr. Hunter, looking feeble and frail in his wheel-chair, was there with his wife.

Promptly at 10:30, Sergeant Dolan entered the room, followed by Martin. Dolan seated himself at the desk, his back to the double windows. Martin stood behind him, leaning against a window-sill. The tenants sat facing the windows, where the light shone on their faces clearly and relentlessly. If they lied, Cilly thought, Dolan would be able to read it in their features.

"Everybody here, Martin?" Dolan asked.

Martin checked with a list in his hand. "Didn't get in touch with the Wheeler woman yet," he reported. "The three other tenants are still out of town—but I don't see the Corbets."

The Corbets, Cilly looked up in surprise. But, of course, they

would be summoned. Mrs. Corbett's mother was the only person who actually saw the murder committed. Her testimony would be very important.

Even as Martin spoke, the door opened and they entered. Mr. Corbett, Cilly noticed, had survived his drinking very well. He was immaculate in a light gray tropical worsted, and he carried himself with an air of assurance.

Mrs. Corbett, the same meek and humble woman Cilly had first met, followed her husband hesitantly into the room. She wore a nondescript blue voile dress, and it hung limply on her thin frame. Her face was pale and drawn. Her mother, in spite of asthma, held her head high and entered the room with a firm step.

AS soon as they were seated, Sergeant Dolan addressed the group:

"You all know," he began, in a calm, rather friendly voice, "a young woman was killed in a fall from the roof of the Bayview Apartments last Sunday night—or, to be more exact, at 12:20 o'clock Monday morning. We have a witness present who can testify that the girl did not fall, but was deliberately thrown from the roof. This is a cold-blooded murder, ladies and gentlemen, which we are investigating, and I need not impress upon you the importance of absolute truth and accuracy in answering my questions. Mrs. Shaw, will you please tell us again, in your own words, just exactly what you saw occur on the roof of the Bayview?"

Mrs. Corbett's mother got to her feet. All eyes were turned upon her. Dramatically, she squared her shoulders and took a deep breath before she spoke.

"As I told you before, sergeant," she said in clear, crisp tones, "I was seated at the window of my bedroom in the St. Ann Apartments. I had not been feeling well, and I wanted to get the air. It was very dark out—there were neither stars nor a moon—and ordinarily I could not see the roof opposite except when an occasional beam from one of the ships in the bay would pass over it. Suddenly I heard this frightful scream, and at that very instant a beam passed slowly over the roof opposite. I saw a man pick this girl up in his arms and deliberately fling her over the side of the house. That is all. I must have fainted. My daughter prepared an opiate for me, and I did not awaken until morning."

"Thank you, Mrs. Shaw. May I ask if the light was sufficiently

strong for you to recognize this man in any way?"

"It was not," Mrs. Shaw resumed her seat.

Sergeant Dolan scanned the faces before him. "Now I am going to ask each of you to remember very carefully what happened Sunday night. We'll start with you, Mr. Hunter. You live on the top floor, directly under the roof where the murder was committed. Did you hear any voices on the roof, any sign of quarreling?"

"No, sergeant," Hunter replied. He spoke in a frail voice, as if to match the infirmity of his limbs. "I must have been asleep. It was the scream which woke me up. My wife ran to the window. . . ."

"Did you get up?"

The man shook his head sorrowfully. "I couldn't do that, you see." He made a futile gesture toward his legs. "I haven't walked in 20 years."

CILLY stood up, her eyes averted. "Sergeant Dolan," she cried, "will you ask Mr. Hunter how it happens, therefore, that last night from across the street I saw him walking about his bedroom in his pajamas?"

The man gasped; he turned to stare at Cilly, and in his eyes there blazed the malevolent fear of a trapped animal.

"Is that true, Hunter?" Dolan snapped.

"The girl's crazy," he choked through dry lips. "She's crazy or drunk. I can't walk. . . . I have doctors' statements to prove it."

"What time was this, Miss Pierce?" Dolan inquired.

"Eleven o'clock, sergeant. There is no mistake about it. I saw him. . . ."

"Say! Wait a minute!"

Cilly spun around to face the man who suddenly interrupted her. It was Mr. Corbett. There was a malicious glint in his eyes.

"In another minute, sergeant, the young lady will be telling you about pink elephants," he offered with tolerant amusement. "At 11 o'clock last night she was in my apartment, drinking dry highballs. And, believe me, she was in condition to see a great many things walking."

"That's an outrageous lie, Mr. Corbett, and you know it!"

Cilly turned to the sergeant, shaking with fury. But in his eyes, she saw doubt and disappointment. It was part of his job to believe the worst—and he believed Corbett's story. She could see it. From now on, the fight would be doubly hard.

(To Be Continued)

(Random House: \$2.50).

The tale of four careers, and how they were molded by the discovery of radium, round out the book. One of the careers was that of the Polish woman, who later married Pierre Curie, physics professor at the Sorbonne, and devoted her life to the study of the rare element she had chanced upon.

Another was that of a Belgian, Pierre Curie, whose overwhelming ambition to be the world's copper king changed overnight when he learned that radium-bearing ores had been discovered on the African holdings of his firm.

When a physician relieved the mind of an English boy, George Purvis, from fear of infection, the boy determined to become a great doctor. How radium helped him build a great career that drugs undermined is another of the plots threaded into the novel.

Perhaps the most colorful character is a Mormon patriarch, Jeremiah Cormick, whose decades of fruitless prospecting finally were crowned with success with the discovery of radium-bearing ores on his properties.

How radium twined together the lives of all these people, and punished greed with tragedy, makes an entertaining, informative story, especially absorbing for those who have a yen for the scientific.—G. P.

Certain things about lighter-than-air craft raise confidence that sound ships can be built and flown. We know that a buoyant gas can raise tons of metal and fabric into the air. We know that helium gas will not burn.

Paul Harrison in Hollywood

Husband, Wife as Film Lovers May Fail— But It's an Idea

HOLLYWOOD—Maybe it's a good idea—this casting of husbands and wives together in romantic roles. Anyway it's a new idea, and that's something.

Stars in love are a proven boxoffice attraction. So interesting are they to fans that studio publicity departments invariably launch rumors of scorching romances between the principals (if unmarried) of each picture.

Sometimes studio executives request certain players to be seen together in public. Occasionally these synthetic romances become real. More often they make several people unhappy.

Divorced couples also draw customers. Public curiosity and imagination were whetted by the Carole Lombard melting into the arms of William Powell in "My Man Godfrey."

While "The Moon's Our Home" was in production, millions of sentimentalists thrilled to rumors that Henry Fonda's love-making to Margaret Sullivan likely would result in a reconciliation. She settled that, later, by marrying Leland Haywood.

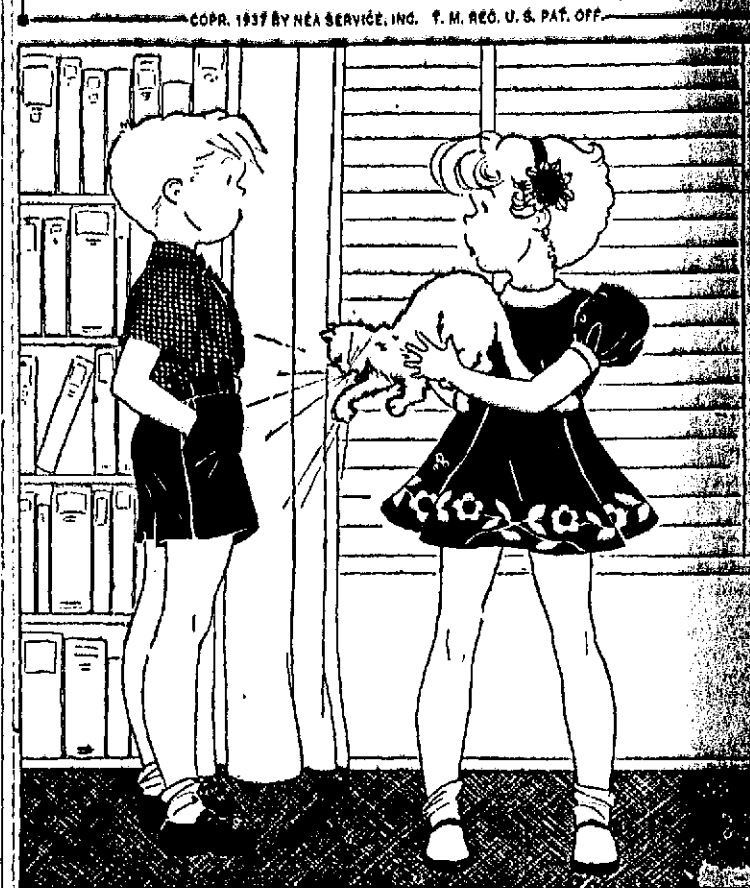

Private Lives

Any day now you'll be seeing Joan Crawford and Franchot Tone in "The Bride Wore Red." Will the fans like it, or will they say, "Aw, they've married anyway, so what's the kick in that?"

In "The Gorgeous Hussy," the Tones

FLAPPER FANNY

By Sylvia

"All right, smarty—now let's see how good you are at those bird calls!"

their motor trip into Los Angeles to appear in court. A few minutes later she was coolly admitting that the marriage had occurred.

There are indications that Miss West and her studio already have indicated a change in audience attitude because she has gone to some pains to announce that her current picture is being played for laughs.

George Raft was married before he came to Hollywood, but nobody seemed to mind. At the time Irene Hervey and Robert Taylor were supposed to be discovering young love, she was a divorcee with a 5-year-old daughter. No deliberate deception was involved, however, and her popularity was undamaged.

Francis X. Bushman never quite was able to live down the revelation that he was married and the father of five children.

Judith Allen, in Cecil DeMille's "This Day and Age," was supposed to be a typical American high school girl, an innocent ingenue—"The Most Unscrupulous Actress in America," said the picture—was first married. And anyone learn that for two years she had been the wife of Gus Sonnenberg, the wrestler.

ORDINANCE NO. 518

An Ordinance, to be an Ordinance Entitled, "An Ordinance Authorizing the Construction of a New Roof and Certain Repairs in Connection With the Hope Water and Light Plant Building, and for Other Purposes."

NEW, THEREFORE, Be It Ordained by the City Council of the City of Hope, Arkansas: That the City of Hope, Arkansas, construct a new roof and make the necessary repairs, on said building, at a cost not to exceed TWELVE THOUSAND FIVE HUNDRED DOLLARS (\$12,500.00).

SECTION 2: That the Board of Public Affairs of the City of Hope, Arkansas be, and it is hereby, authorized to accept bids for material and labor for a new roof on said building, and other repairs, in accordance with the estimate and recommendation made by it, and to contract for said material and labor, and to make such repairs, at a cost not to exceed TWELVE THOUSAND FIVE HUNDRED DOLLARS (\$12,500.00).

SECTION 3: All ordinances, and/or parts of ordinances, in conflict herewith are hereby repealed; and this ordinance being necessary for the public health, safety and general welfare of the City of Hope, an emergency is hereby declared, and this ordinance shall be in full force and effect from and after its passage and publication.

Passed and approved this October 5th 1937.

Published in Hope Star October 6, 1937.

Attest
T. R. Billingsley
City Clerk.

NOTICE

The City of Hope, Arkansas, will make the following improvements at the Hope Water & Light Plant Building: Construction of a new roof and other repairs in accordance with specifications furnished by the Hope Water & Light Plant upon request.

Contract for this construction shall be let to the lowest responsible bidder. Sealed bids will be received by the Board of Public Affairs of said City up to 10:00 o'clock A. M., October 15, 1937, when said bids will be opened in the council room at the City Hall and the contract let, if a satisfactory bid is received.

By DR. MORRIS FISHBEIN
Editor, Journal of the American Medical Association, and of Hygiene, the Health Magazine.

Early Diagnosis, Operation May Halt Effects of Other Dangerous Cancers

This is the 16th of a series of articles in which Dr. Morris Fishbein discusses cancers, their cause, and measures for prevention and treatment.

(No. 37)

More than 5,000 people in the United States die every year from cancers of the intestines and the rectum. About 5,000 people die every year of cancers of the kidney, the bladder and the prostate. Another 5,000 die of sarcomas, the type of cancer that affects the bones and the muscles.

In every one of these cases everything depends on finding out as soon as possible the nature of the growth.

People with cancers of the intestines and the rectum frequently find the material excreted from the body discolored by blood, either fresh or old. They suffer occasionally from gas formation and may be greatly troubled with action of the bowels. These cancers may spread in the body.

Without attention, the person with a cancer of the intestines or the rectum will die quite promptly. But a surgical operation may prolong life for years. New methods of operation,

particularly the use of electric surgery, have been developed.

Exactly as cancers of the bowels may indicate their presence by the appearance of blood in the excretions, so also will cancers of the kidney, bladder and prostate sometimes indicate that something may be wrong by a reddish appearance of the urine.

Of course, there may be pain which is always a warning signal, but far too many people attempt to control pain by taking sedatives or narcotics instead of by finding out what causes the pain. A sharp pain in any portion of the body is a warning that something must be wrong. You cannot stop the growth of a cancer by taking something that will merely relieve the pain.

Of greatest importance in relationship to all of these types of cancer is the use of the X-ray as a means of early diagnosis. Cancer cannot be diagnosed with certainty from the history of the patient alone. In making the diagnosis every modern method possible should be employed.

NEXT: Diagnosis of cancer.

Your Children

By Olive Roberts Barton

Sale of Erotic Publications Calls For Parental Action.

A magazine was handed me this summer without comment. I opened it innocently and began to read at random. In ten minutes, I sought my hostess and asked, "Where did you get this?"

"I thought you would be interested," she replied. "John picked it up to read on the train. We have decided that something should be done about it."

"Done about it?" I cried. "Where is a government that permits such issues?" I cried. "With all the sex crimes driving mothers frantic, can't such a sheet as this be crushed? The postal authorities, supposedly careful about obscene literature, could arrest the publishers and keep them in jail for life."

next day I found it. I kept it to show you. In the meantime I spoke of it one day, never dreaming that Don had seen it."

"Well?"

"He had read it from cover to cover, and when I gaped he laughed and said, 'Mother, you poor innocent, you don't know anything. That's nothing. You should see some of the things the fellows bring to school.' What can we do?"

I merely stood and looked at her. "What can we do?" I kept repeating. "What can we do?" These lecherous publications reach our children and fill their minds with lascivious sewage, while all the time we think they are pondering over goal kicks and tackles.

"They can take it and leave it, I suppose," sighed this lady hopefully. "Maybe we get all hot and bothered about nothing. I try to think that it

Billroy Comedians Here on October 12

Tent Auditorium of Musical Show Seats Nearly 5,000 Persons

On Tuesday, October 12, the fall theatrical season in Hope will be officially opened here by the appearance in this city of the greatest show in the world of its kind. It is the 13th anniversary of Billroy's Comedians, "the greatest show on earth for the money" and so well and favorably known to theater goers that this simple announcement alone would suffice to fill the brand new water proof tent which seats nearly 5,000.

During the winter months this attraction has played to nearly a half-million people in the resort cities of Florida. A fleet of more than thirty-

Miss Marion Roberts, charming and talented leading lady with Billroy's Comedians.

five buses, cars and trucks is required to haul the big troop which numbers eighty people. Featured in the billing of the show this year is Yolanda the glamorous Queen of Bubble Dance, an exotic creature whose youth, beauty and grace has thrilled and charmed millions. Then, of course, there is the famous Palais Royal Orchestra, 15 vaudeville acts and dozens of beautiful, graceful girls who will appear in the numerous ensembles which are interspersed throughout the acts of a brand new three act comedy farce that is being presented this season.

As has been the policy of Billroy's for years, women will be admitted free when accompanied by one adult paid admission. This is, undoubtedly, the largest, finest, cleanest and most entertaining show of its kind in all the world and with popular prices prevailing it is anticipated that a packed tent will greet this world famous organization on the evening of Tuesday, October 12.

The big tent will be pitched at lot just beyond old Garland school at West Sixth street, and the Billroy management invites the public to visit the show grounds that day and see the most beautiful fleet of trucks and the most modern tent theater in America. On the night of the performance the doors will open at 7:15 with the Overture at 7:30. Charming ushers will see to the comfort of the patrons. Parking space is free.

Hitler Praising Italy and Japan

A Nazi flag flying above his head, Chancellor Adolf Hitler is shown on a balcony saluting cheering members of the Nazi party at their Nuremberg convocation. He proclaimed that the "close friendship" of Germany, Italy and Japan was destined to "repel an attack on the civilized world."

Coroner's Verdict

(Continued from Page One)

keep his stuff—but never sleeps there. I last saw him alive about 10 days ago. I saw him the last time Tuesday of this week, dead. I know nothing about movements of Beatty since I last saw him alive. I had heard about some trouble between Beatty and the negroes on the Arthur Dougan farm. Mr. Dougan had told me about that.

Bert Smith, fourth witness: "I live near Emmet. I had known Beatty for a number of years. I last saw him alive about 10 days ago. The next time I saw him was at the creek where he was found dead. I helped remove body from the creek. I examined the banks for footprints—but it had rained and I couldn't tell much about it."

Lewis Alwhite, fifth witness: "I live about one and a half miles from the Ed Beatty place. Last time I saw him alive was two weeks ago—and the next time at the creek, dead. I didn't examine the banks for a possible scuffle."

Henry Willett, sixth witness:

"I have known Beatty four years. I live about a mile from his place. I last saw him alive about 1 o'clock last Thursday afternoon. I helped get the body out of the creek. I saw a whisky bottle, hat, paper sack and bucket on the bank—but didn't examine the bank for footprints."

R. D. Smith, seventh witness: "I last saw Beatty alive Tuesday or Wednesday of last week—and then saw him dead in the creek. I saw his hat, a bucket, paper sack and whisky bottle on the bank. The bottle was, I believe, about half full of alcohol."

Will Brown, eighth witness: "I have known Beatty 27 years. I last saw him alive in Emmet about 10 days ago. I heard that Beatty ate breakfast at the home of Ross Fee Friday morning."

"I helped take the body out of the creek, but didn't examine the bank very closely. My belief is that Beatty went to the creek to fix up some alcohol and fell into the water and drowned."

Ross Fee, ninth witness: "I live on a farm about three quarters of mile from home of Arthur Dougan. I last saw Beatty alive at 8 o'clock last Friday morning. He had come to my house early that morning and ate breakfast with me. I then walked with him down a road to a point where I turned off to go see about some cotton picking. Beatty, I presume, went on to his farm."

"Beatty seemed to be in good spirits and if there was anything wrong with him I couldn't tell it. He told me about some trouble he was having with some negroes and that he (Beatty) believed that Arthur Dougan was taking up for the negroes."

"I understand that Marshal White's

Here Is Another Use Calling Cards

Are Now Used for Writing Invitations or Notes Sent With Gifts

Calling cards, originally devised to be left as reminders after paying a formal call, now are used also for writing gifts and even for written orders.

Two types are in popular use; the

ing invitations, for notes sent with formal, single card and a folded, informal one.

The formal one should be white or cream and have a kid or suede finish. Artificial parchment is out of favor because it has a poor printing surface. In its place stationers supply a stiff, thin paper.

The informal card is generally larger and carries a flap for notes.

The usual size of a man's card is 1 7/16 by 2 1/4 inches. The wife's card is larger; in this case about 2 1/16 by 2 3/4 inches. If they use a "Mr. and Mrs." card, it should be about 2 5/16 by 3 3/4 inches. Unmarried woman use a card about the same size as that of a married woman.

As to prefixes. Men do not use "Mr." until they are the age of a college senior. Girls can start using "Miss" when they are 15 or 16.

Formal and informal cards may carry the address, in the lower right hand corner. Telephone numbers may be used on informal cards, but not on formal ones unless they are for business.

Script or shaded roman lettering is preferable.

Full names, not initials, are best unless the name is unusually long.

"There is no way to tell where Beatty fell into the creek and drowned—and as far as I could tell there is no indication that he drowned. I examined the clothes he wore—but could not find blood stains—nor any cuts in the clothing to indicate a fight."

The Twentieth Century limited, operating between New York and Chicago, covers the 961 miles in 18 hours at an average speed of 53.4 miles an hour.

Writes New Book on Intelligence Test

Dr. Lewis M. Terman Writes About How Stupid You May Be

By SAM JACKSON AP Feature Service Writer

PALO ALTO, Calif.—The man who tells you how smart you are—or how stupid—is out with a new intelligence test, double-barreled in structure and backed by 27 years' research. You may walk into this test considering yourself a "superior adult" but if the test says you're mentally a 12-year-old, you may as well go fly your kite and not argue. The new test is the McCoy.

It was in 1910 that Lewis Madison Terman, a former country school teacher, joined the faculty of Leland Stanford university and seriously set to work measuring human intelligence. His first scales were published in 1916, gained instant acceptance and catapulted Professor Terman into the big job of testing American recruits in the World War.

Manual Tests First

Today, at 60, he has the satisfaction of seeing roughly half the school children in the country tested for mental capacity as a routine matter and of seeing his system used throughout the English-speaking world.

His queries also are the archetype of the "brain teasers" and question-and-answer features now so prominent in newspapers and magazines.

Terman's tests include means of determining your vocabulary, your memory for digits and simply drawn designs, your comprehension of abstract terms, recognition of absurdities in spoken statements, and so on.

For younger children the tests are largely manual. A 2-year-old, for instance, should be able to replace wooden discs shaped as a circle, a square and a triangle in the correct holes in a board.

How to Figure I. Q.

The scales give one a "mental age" of anywhere from two to 16 years. That is because native intelligence doesn't develop beyond 16.

"There is a gain in information and in special abilities, of course," Dr. Terman explains, "but rarely in intelligence as tested by these scales."

The famous intelligence quotient, or "I. Q.," is mental age, plus two eighths, divided by actual age. Thus a 10-year-old with 10-year mentality would have an I. Q. of 100. A smarter one might have a 12-year mentality, which would give her an I. Q. of 120.

Easy to Discover Maroons

Of the numerous discoveries of brilliant children of "genius" rating, Dr. Terman says:

"I really don't believe they should

be called geniuses. People have taken the term so seriously I haven't even used it in the new book."

On the other side of the picture, he says that most psychologists probably would agree that an adult with a mental age below 10 should be classified as a moron; one below 8, an imbecile and one below 3, an idiot.

What Intelligence Is

The double-barreled feature of his new work is that it consists of two different but exactly equivalent sets of tests. One can be used to check the other.

No seeker after personal glory, Dr. Terman calls his system "Binet" tests after the French pioneer in the field, insists some credit go to his collaborator, Maud A. Merrill.

"There are many definitions, but the one I am inclined to think is nearest the truth is, Intelligence is ability to think in abstract terms."

Star Dust

By LEONARD ELLIS

THE DE QUEEN SLANT

It was Jim Farley who predicted that the Democrats would carry every state except Maine and Vermont—but it was R. B. Smith, who writes Gridist in the De Queen Daily Citizen, who predicted that the Leopards would win over the Bobcats last year.

As most every one knows both predictions came true.

Another year has rolled around since the last meeting of the Leopards and the Bobcats—so here is the slant taken by Gridist this year:

"Now if Hope requires a notion because the Leopards lost to Nashville that the Bobcats are going to have easy sailing over here Thursday night, why that will be just dandy—for the Leopards."

"It is recalled that Gridist admonished the Bobcats and their coach last year that they were making a previous mistake to pool-pool the Leopards on the basis of an admittedly unimpressive record. The Leopards had been defeated 25 to 0 by Nashville, and Hope had defeated Nashville 31 to 6. But, in fatherly manner, we cautioned the Bobcats against overconfidence, warning them that the Leopards were much better than they looked on paper. We advised them candidly that the Leopards had no desire to slip up on the Bobcats, but that they were coming to Hope to win a football game, and they wanted the Bobcats to be at their best."

"We are not making any predictions concerning the outcome of the game Thursday night, but we do take occasion again to admonish the Bobcats that hope cannot be relied upon, particularly where the Leopards are concerned."

"We would have the Bobcats understand that the Leopards are no less determined and no less confident of their ability to take Hope's measure this year than they were last year, and for Hope to treat them lightly—to come over here expecting to stage a Roman holiday or even to win by a close score without extending themselves to the limit—would be a fatal mistake."

From the appearance of End Percy Ramsey, one would think that he already has been in a Leopard scrap at De Queen.

Ramsey had the misfortune of severely slashing his lip when he ran into a barbed wire fence in football practice Tuesday afternoon. Ramsey was stretching for a long pass when the accident occurred.

Although the wound required medical attention, Ramsey is expected to be in the lineup against De Queen Thursday night.

As this was being written at 10 a. m. Wednesday there had been no definite arrangements for a special train to De Queen as far as we could learn. We have had many inquiries about a Bobcat Special since it was suggested Monday in this column—and a lot of armers to support the move.

But—no action.

A great number of fans, no doubt, will follow the Bobcat team to De Queen. Unless they go on a special train, they will be forced to "eat the dust" on more than 100 miles of gravel highways, to and from De Queen, besides facing the added danger of a road mishap.

Former Bobcat football players making good in colleges this year are Zelon Holly, Nolan Cargile and Jack Turner.

Holly is holding down the center position on the University of Arkansas Fresh team.

Cargile is showing 'em how to carry the pigskin at Oklahoma Military Academy at Claremore.

Last Saturday Holly and Cargile opposed each other in a game between the Parker Yearlings and O. M. A. at Claremore. It was Cargile's running and passing that beat the U. of A. Fresh, 7 to 0.

Cargile, incidentally, scored the winning touchdown.

Jack Turner is somewhat of a veteran at Henderson State Teachers college. Turner got away with a 60-yard run against Texarkana Junior college—and played an important role in the Reddies' victory over the Bulldogs.

Reports Wednesday said that R. C. Kennedy, former Bobcat end, had quit the Henderson team to accept a position as school teacher near Texarkana.

He Must Have Something EAST LANSING, Mich. — When Charlie Bachman took over the coaching job at Michigan State five years ago his squad numbered just 32 candidates. Since then it has doubled in size, with 64 boys having reported this season.

DeQueen Prepares for Record Crowd Thursday

He Flies Through the Air

There is something of the adagio dance about this football action picture snapped as Columbia University's eleven swamped Williams, 40-6, at New York. Here Bob Taylor, Columbia halfback, is caught in midair by the Williams' fullback as he hurtles over the goal line.

Former Hope Boy Quits at Henderson

R. C. Kennedy, End, to Accept Position as Teacher

ARKADELPHIA, Ark.—R. C. Kennedy, veteran end on the Henderson State College football team, has left to accept a teaching position near Texarkana. It was announced Monday, Kennedy, a graduate of Hope high school and former football star under Coach Foy Hammons, was playing his third year at Henderson where he had developed into a good forward pass catcher.

The Henderson team is busy getting ready to meet Arkansas Tech here Friday afternoon. While the Reddies' 18 to 0 victory over the Texarkana college team here last Friday was somewhat of a surprise and showed the Henderson team to be better than expected, the coaches credited some of the Reddies' success to Texarkana's being slow and off form. There are no less than seven freshmen in the active squad and this inexperience hurts results severely.

In the place of the veteran Kennedy, Parker, a freshman, is playing at end. He played rather well against the Texarkana team, and scored one of the three touchdowns. The Henderson backfield of Phillips, Miller Turner and Varnado come up to expectations.

Tech is rated as far above the Texarkana team and the Reddies hope to hold the score low by using the same fighting spirit that characterized their performance last Friday.

Tigers to Play Friday
ARKADELPHIA, Ark.—The Ounchita Tigers returned home Sunday from Abilene, Texas, where Friday night they dropped a 51 to 0 decision to the Hardin-Simmons Cowboys. The players escaped injuries and will be in good condition for the Murray State team of Kentucky here Friday night, unless scrimmages cause casualties.

The Tigers are in for a lot of hard work straightening out kinks which have prevented them from functioning very well this season. Coach Bill Walton was not as discouraged over the results at Abilene as might be supposed. He said, and the Tigers corroborated

Fort Worth Winner Dixie Series Final

Little Rock Unable to Hit, Lose by Score of 9 to 0

FORT WORTH, Texas.—(AP)—Gangling Ed Selway hurled the Fort Worth Cats to another Dixie series pennant Tuesday night, mauling the Little Rock Travelers, 9-0, in the fifth and final game.

After seven lean years, the Dixie pennant flew again here Tuesday night for the seventh time since the baseball classic of the Southland started back in 1920. Never in serious trouble Selway held the Travelers at bay while his mates pecked away in the early innings and finally exploded with a four run outburst in the seventh that settled matters.

It was Selway's second shutout of the series. He blanked the Travelers on their home lot in the second game, 3-0. Bob Porter, starting Traveler pitcher, weathered the first four innings but weakened and was relieved in favor of a pinch hitter in the sixth.

Fort Worth started scoring in the second frame on Moore's walk, Greenberg's sacrifice and McLeod's blazing single to left. They tacked on another in the fifth when Jackson was hit by a pitched ball, forced out by Selway and Sheeley popped a double against the left field wall. Selway stopped at third and was finally forced at the plate but Stebbins single punched off Sheeley across.

Moore opened the sixth with a rousing triple to right and came in on Mallon's fly to center.

Two more hurriers took the hill for Little Rock in a crazy seventh that saw four Cat tallies drift across. Kola Sharp relieved Porter and immediately walked Jackson. Selway bunched a single into left and Sheeley singled to right, loading the bases. McDowell walked, forcing in Jackson. Lee Rogers took the hill. Stebbins forced Selway at the plate but Moore was hit by a pitched ball, forcing in Sheeley. Greenberg forced McDowell at the plate but Mallon's one baser scored Stebbins and Moore.

Jackson opened the eighth innocently enough by fouling out to Tabor but Selway went all the way to second, when Freddie Taubey dropped his fly ball. Sheeley's single sent his across and the husky centerfielder scored himself when Stebbins bunt threw an infield tap and Catcher Cable bunt threw a fly to first trying to get him. Little Rock's closest threat came in the second when Graham opened with a single and Coble was safe on Stebbins' error. A squeeze play failed. Selway bagging Griffiths bunt and catching Graham at the plate.

Arkansas coaches were well pleased with the performance of Frank Mosley, reserve fullback who shone on pass defense. They also expressed belief that although Ralph Atwood and Kay Eakin failed to star against the Pros, these two sophomores will be heard from later in the season.

"If the Razorbacks win over both Baylor this week and the University of Texas next week," Thomson said, "the fans will have reason to start talking of the possibilities of a second consecutive gridiron championship, but not before. It's a pretty big assignment to face teams coached by Morley Jennings and Dana X. Bible on successive weeks."

STORIES IN STAMPS

CLOSING THE LAST GAP IN GLOBE CIRCLING

SCHEDULED to span the Atlantic on regular mail and passenger flights beginning this fall, two great flying boats of Pan American Airways and Britain's Imperial Airways have ushered in a new era of transportation and closed the last great gap in round-the-world flight.

These boats, the Pan American Clipper and the British Caledonia, completed a series of successful summer survey flights without a hitch. The big Sikorsky clipper first flew from Fort Washington, N. Y., to Botwood, Newfoundland, thence took off across the Atlantic for Foyne, Ireland. She landed 12 hours and 30 minutes after departure from Botwood.

At the same time Britain's Caledonia spanned the Atlantic, flying down from Botwood to Montreal, thence to Port Washington. Meanwhile, the Clipper had shuttled on to Southampton and the first ocean to be crossed by airplane had become the last to be spanned in commercial air service. Take-off and landing points for these flights are shown on a Newfoundland map stamp of 1928 and an Irish map stamp of 1923.

Winning Plays of 1937

Lateral Off Forward Nets Tulsa 57-Yard Touchdown to Beat Sooners

By ART KRENN
NEA Service Sports Writer
A lateral off a forward play netted the University of Tulsa a 57-yard gain and an all-important touchdown in their 19-7 victory over the Sooners of the University of Oklahoma.

Trailing 7 to 6 in the third quarter and in possession of the ball on its own 43-yard line, the Golden Hurricane of Tulsa went into a single wing-back formation with the ends split. Sophomore Tommy Thompson, hailed as another Slingin' Sam Baugh by

many Southwest fans, took the ball from center, fudged to the left, and heaved a long pass to Left End Curly Hays, who had raced directly downfield.

Jack Baer, Oklahoma fullback, almost intercepted the pass on his 25-yard line, but Hays took the ball from between his arms and dashed to the 15-yard line where, just as he was tackled by Webber Merrell, Oklahoma safety, he lateraled to Buster Baze, Tulsa right end, who was following the play.

Baze, untouched, ran the remaining distance for the score that put Tulsa ahead for good.

When the ball was snapped back to the line—the left guard blocking the Oklahoma right tackle, the right guard handling the left tackle. Sam Brotton, Tulsa fullback, blotted out the Sooner left end, and Quarterback Tudor Jones took care of the right end.

Paul Rogers, playing left wingback, charged on downfield as a potential pass receiver.

Jock Sutherland Doesn't Fear That His Team Will Become Overconfident

University of Pittsburgh Coach Is Not Worrying Because Team Is the Defending Champion of Rose Bowl—Too Many Fights for Positions on Team

By HARRY GRAYSON
Sports Editor, NEA Service
PITTSBURGH—Guiding a defending Rose Bowl champion is a new experience for Dr. John Bain Sutherland after 18 years as head coach of a major college football team. 13 of them spent at the University of Pittsburgh, where his clubs have lost only 18 games.

Jock Sutherland missed three times at Pasadena, but twice—in 1928 and 1933—the tall Scotsman brought his array back near the top after taking walloping on the golden slope.

Sutherland had only 11 worthwhile players in 1928, yet only 13 points were scored against the Panthers. With better material in 1933, the same number of points were registered by rivals, and only one game was lost—to mighty Minnesota, 7-3.

Now, with a Bowl winner, and 23 lettermen, including eight who started against Washington, Sutherland is on the spot marked X. Well-meaning, but over-zealous alumni believe that Pitt can't lose this trip.

But those closest to Pitt, the silent doctor's staff and Panther athletic officials, will not be surprised if, somewhere and somehow, the boys manage to kick one. And there will be no consternation if it happens. The set-up appears altogether too good.

Sutherland is not worrying (and he's a Grade A worrier) about the lads easing up because of their present apparent exalted position. There are still too many fights for position to allow a letdown by any player.

Sutherland's Assistants Get

Other Positions
Exactly three lads are starting assignments cinched. They are the phenomenal Marshall Goldberg at left halfback, Bill Daddio at left end, and Tony Matisi at left tackle. The battles for starting jobs elsewhere should be slightly more than spirited.

Sutherland's staff is changed. The Pasadena victory opened posts for several of his veteran assistants who were anxious to get out for themselves after years at the knee of the master technician.

Bill Kern and Dr. Eddie Baker went to Carnegie Tech. Eddie Hirschberg departed for Dartmouth. Three Pitt men, with high school and college coaching experience, returned to replace them. They are Josh Williams, Alex Fox, and Eddie Schultz. Sutherland himself hasn't changed a lot. He still feels good because he

en to the air before. He is likely to again, and has the tossers at hand.

No football man can build an offense any better than the taciturn Sutherland.

Pitt Schedule Tough, but

Jock Is, Too

Perhaps Sutherland can school his sophomores during this fall's engagements, but he'll have to be careful. Duquesne won a year ago, and is more formidable this time.

Fordham, after two scoreless ties, gets Pitt in New York on the fourth Saturday, the same day on which the Panthers have lost their only four games in four years—to Minnesota twice, Notre Dame, and Duquesne.

Wisconsin no longer is a setup, with Harry Stuhldreher better established. Carnegie Tech, under Kern, will be tougher than usual.

Notre Dame (it's the last game of the series between the two) is to be played at South Bend, and follows last

Both Teams to Be in Good Condition

Leopards Strengthened by Williams—Bobcats Are Much Heavier

DE QUEEN.—(Special)—Indications are that coaches of the De Queen Leopards and the Hope Bobcats will be able to present practically the pick of their troops when the teams meet at De Queen in their annual football game Thursday night.

Coach C. O. Criswell of the Leopards announces that Corley, regular Leopard center who was injured in the Nashville game, will be unable to play against Hope. Jack Thomas, guard, will take over the center chores. Gene Gardner, Leopard end, has a bruised foot which may slow him up some, but he will start against the Bobcats.

The Leopard line will be strengthened by the return of Williams, and otherwise the regulars are in good condition. The Leopards' greatest weakness is a lack of reserves.

It is reported that all members of the Bobcat line, with the exception of Jewell at center, are veterans. Jewell is playing his first year, replacing the veteran Hugh Carson, who is no longer eligible to play. Aslin and Eason in the back field are playing their first year.

In weight the Bobcats will have an advantage of 12 pounds to the man, the same difference as last year. Weights are as follows: Team, Hope 173, De Queen 161; line, Hope 177, De Queen 164; backfield, Hope 166, De Queen 155.

Because of intense rivalry between the two teams which has been given wide publicity, it is expected the Thursday night game will draw one of the largest crowds ever assembled to witness a football game in Southwest Arkansas. Hope fans are endeavoring to charter a special train. Two hundred adult tickets and 200 student tickets have been sent to Hope for the advance sale.

An insurance policy of \$1,000 to protect from loss of gate receipts on account of rain, has been purchased, according to G. P. Bolding, high school principal. The policy provides that the insurance company will pay the difference between the amount of the gate receipts and \$1,000 in the event there should be as much as one-tenth of an inch of rainfall during the three-hour period from 5 to 8 p. m. Thursday.

Both teams will be supported by bands, pep squads and fans. The new score board will be completed and will keep fans advised as to the progress of the game.

Alvin Bell of Little Rock, football official and authority of national prominence, will referee the game. The umpire will be one of the 100 dan twins of Fordyce and Arkansas Razorback fame. Raymond Sage of Fordyce will be headlinesman.

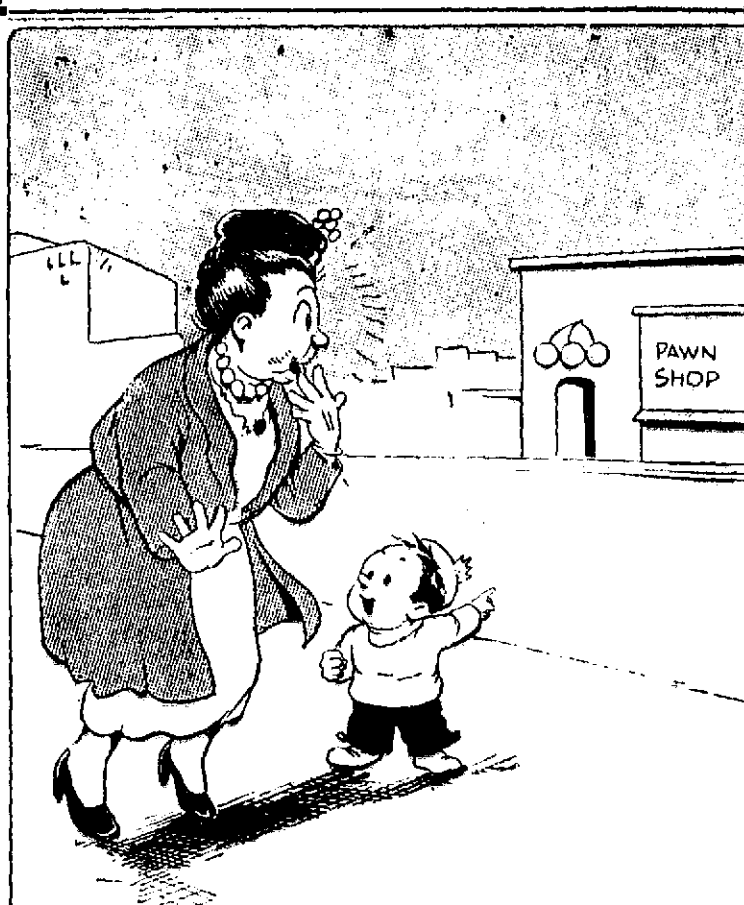

Hope's record to date:
Hope 23, Horatio 0.
Hope 20, Benton 0.
Hope 14, Byrd High 25.
Hope 20, Smackover 0.
De Queen's record to date:
De Queen 25, Waldron 0.
De Queen 20, Horatio 13.
De Queen 12, Nashville 20.

Fit for a King
NEW YORK—Proprietors of the St. Nicholas Arena here tried to change the name to Royal Windsor, but the boxing commission said no.

season's 26-0 Pittsburgh victory. Nebraska has for years tried to beat Pitt with superlative backs. Where the Fressnell, Howells, Russells, Savers, Cardwells, and Francis failed, maybe Major Biff Jones and his two veteran linemen can perform the feat.

Pitt's schedule is tough enough, but Dr. Sutherland always manages to come up with the proper prescription.

Hold Everything!

Style of Eating in London Different

Britons at Dinner Table Are a Nation of Southpaws

By WILLIAM McGAFFIN
AP Feature Service Writer
LONDON—Americans who come to London are forced to change their style of eating—or be stared at as curiosities. For Britons at the dinner table are a nation of southpaws—very energetic southpaws.

Everybody eats with his left hand—there's no awkward changing over from left to right after cutting one's meat.

Dieties in Knifing
But the first thing goggle-eyed Yankees learn is that the knife is more than an instrument for cutting food. Give an Englishman a knife and he will see some of the fanciest manipulations ever performed outside of a billiard room.

He starts as an American does—fork in left hand, knife in right. But from there on, all rules are off.

Your Englishman firmly stabs the meat with his fork. Then does he lift it to his mouth and start chewing? He does not. He scurries about the plate. No waste action here. It must be a full load—and a varied one—before an Englishman will exert the energy to raise it to his jaws.

Round and Round

It's here that his knife gets its extra workout. Around the plate go knife and fork, stopping for a little cabbage here, a few potatoes there, and a bite of whatever else happens to be on the circuit. All of this is firmly mashed on the back of the fork with the aid of the knife. Yes, the back of the fork. It holds more than the front, you know.

So, after meat, cabbage, potatoes and so on have been piled on the fork, the Englishman raises his strong left arm, ducks his head to meet the oncom-

Building Plans Offered for New Construction on the Farm

FOUR-ROOM FARM HOUSE
PLAN No. 74213
PLAN SERVICE
UNIVERSITY OF ARKANSAS COLLEGE OF AGRICULTURE

The wide range of native and local building materials in Arkansas has created a need for plans adapted to a variety of styles and types. In the above illustration, the same plan is shown in stone and in frame construction. There is no change in the floor plan, or inside measurements. The special feature of the plan is the separate dining space, halfway to give access to all rooms, and the kitchen at the front to give a view of the road or highway. This is one of a series of farm house plans designed by the University of Arkansas College of Agriculture to meet Arkansas conditions, and may be of frame, log, or stone construction. The working drawings of this plan, No. 74213, may be secured from your County Agent and Home Demonstration Agent.

Use of farm building plans, whether for dwelling, barn, or for any other type of service building, results in reduced building costs say Miss Melva Bullington, home demonstration agent, and Clifford L. Smith, county agent. Building as one goes, without plans worked out by the entire family, usually results in large expenditures and poorly arranged buildings. In order that farm people of this county may have homes and farm service buildings more nearly meeting their general requirements, well planned from the standpoint of economical space utilization, the University of Arkansas College of Agriculture has developed more than 100 complete sets of building plans for farm dwellings, hog houses, barns, smoke houses, machinery sheds, poultry houses, and other necessary structures on Arkansas farms. This plan service is available through the county agent and home demonstration agent of this county.

Miss Bullington and Mr. Smith now have in their offices plan service hand books which farm people may study and from which they may select floor plans suited to their needs. Working drawings of the selected plans may be secured through these agents.

The plans may be for rock, log, or frame construction, depending upon locally available materials which farm people have on their farms. This service is apart of the homemade homes campaign launched last week in this county, emphasizing the use of native materials and home labor in order to cut building costs.

Presbyterian Officers to Meet Wednesday

The Rev. Thomas Brewster, pastor of First Presbyterian church, announced that a meeting of church officials would be held Wednesday night at the church, following mid-week prayer service at 7:30 o'clock. He urged all officers to be present.

Our earth moves through space at a rate exceeding 75 times the speed of a common ball.

Remember This When You Need a Laxative

It is better for you if your body keeps working as Nature intended. Food wastes (after digestion) should be eliminated every day. When you get constipated, take a dose or two of purely vegetable Black-Draught for prompt, refreshing relief.

Thousands and thousands of men and women like Black-Draught and keep it always on hand, for use at the first sign of constipation. Have you tried it?

Black-Draught A GOOD LAXATIVE

Organized Labor Carries on Debate

American Federation of Labor Maps Plans at Denver Meeting

By MORGAN M. BEATTY
AP Feature Service Writer
WASHINGTON.—The two rival wings of organized labor have set aside the month of October to carry on a transcontinental debate.

In Denver, Colo., beginning October 4, the convention of the American Federation of Labor decides the Federation's strategy in its warfare with the Committee for Industrial Organization. A week later at Atlantic City, N. J., the CIO meets to set off any answering blasts the occasion may demand.

Clash of Personalities

It's the Federation's 57th annual meeting, and the first for CIO, two-year-old giant not yet provided with a constitution.

The bitter warfare has divided labor's ranks almost equally, each side claiming almost four million members, and has provided two outstanding personalities. On the Federation side is mild-mannered President William Green, and on CIO's, dynamic, bull-throated Chairman John L. Lewis.

The differences between the Federationists and the industrialists are fundamental and so difficult to explain to an outsider that you may expect to be confused when the two conflicting voices start blasting at you during the conventions.

Clash of Principles

Stripped of technicalities, here are the opposing philosophies: The American Federation of Labor (1) recognizes fundamental inequalities in human talents, and advocates rewarding the man with skill in his craft, and (2) militantly opposes active political participation among its officers, preferring instead to play political parties against each other.

The CIO believes (1) labor must gear its organization to modern mass production to enforce the principle that in numbers there is strength, and (2) labor should organize politically to express itself and to dangle blocs of votes over the heads and in the faces of other political groups.

CIO's Political Alliance

Lewis has long been impatient with the Federation philosophy on "the ground" that it sacrifices the solidarity of labor for the sake of the skilled few. He gave up trying to bring the Federation around to a new way of thinking two years ago. Then he formed the CIO, several diplomatic relations with the Federation, and took 10 international unions with him.

Immediately CIO started after the mass production worker, putting the skilled craftsman in the same union with the man who screws a nut on a bolt in the assembly line—long as both worked in the same industry.

On the political side, Lewis and his colleagues organized Labor's Non-Partisan League, an excellent corral for labor votes.

The situation on the eve of the cross-country debate was this: The Federation had "suspended" the international unions in Lewis' CIO, but had taken no action to "expel" them forever. Lewis took the position that he was not interested in anything the Federation did, but that was probably little more than a pose.

Warning the "Bad Boy"

At Denver the question is: "Should the Federation expel the CIO?" The answer of the longheaded leaders who have controlled the Federation for years is a startling "No."

What you may expect at Denver is that the Federation will produce resolutions condemning Lewis for accepting the support of communists and an order to state and local federations to keep on outlawing local Lewis unions.

This would close the door to Lewis' men in city and state federation groups, but leave the gate ever so slightly ajar for him in the national, or rather international Federation of Labor. This also would put the Federation in the position of the tolerant and kindly parent, who warns his bad boy of his errors, but stands ready to forgive and forget.

Also expect the Federation to go after the unskilled mass production man, much as Lewis has gone after him.

CIO's Next Step

At Atlantic City, Lewis will be prepared to repel any propaganda the Federation may throw the public's way. And if the Federation gets too glib, expect Lewis to:

(1) Announce a permanent Federation of some kind as a rival to the old Federation; (2) laugh off the communistic label the Federation tries to pin on him; and announce tremendous gains for CIO wherever the national labor board has ordered workers' elections; and (3) start hatching up a constitution for his CIO modeled along the lines of the United Mine Workers' constitution, which gives its leader (the same John L. Lewis) enough power to drive through a cohesive, connected policy, and to put down any internal uprisings. The old Federation's constitution does not condone such dictatorial tactics.

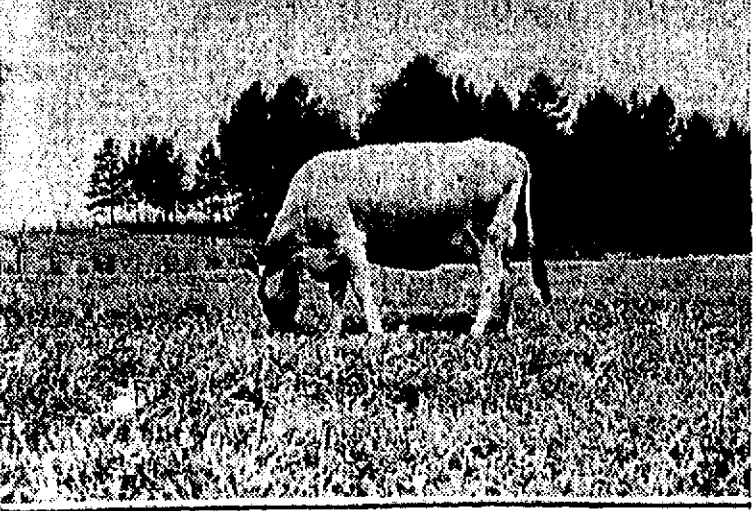

Watch what the opposing leaders say in October. They are saying it all for your benefit, because they need your good will—the public's good will—more than anything else in the world.

Stocks Check Decline; Make Small Recovery

NEW YORK.—(AP)—A vigorous rally, following an earlier dip in the stock market Wednesday, cut many losses and switched others to the plus column.

To provide automatic and constant record of various pertinent data on the operation of each scheduled flight, 60 "flight analyzers" including the recording barograph and other features have been adopted by United Air Lines.

A Good Permanent Pasture

Many interested farmers from Hempstead and adjoining counties, are expected to attend the annual pasture meeting at the University of Arkansas Fruit and Truck Branch Experiment Station this Friday afternoon, at 2 p. m., according to an announcement made by G. W. Ware, Assistant Director in Charge.

The program will include timely discussions by Professor Martin Nelson, University of Arkansas, College of Agriculture; L. A. Dhonau, Extension Agronomist; L. C. Baber, District Agent; and E. A. Hodson, Regional Agronomist of the Soil Conservation Service.

Demonstrations on sodding, inoculation of winter legumes, pasture plant identification, bitter weed eradication, terracing, and general pasture management, will be given.

An entertainment of special interest, terminating the program, will be a bare back mule race with negro jockeys. The public is invited to attend.

Tennessee to Hit Crump Machine

Special Session Will Attempt to Enact County Unit Measure

NASHVILLE, Tenn.—(AP)—Governor Browning confirmed Wednesday a report that he would call an extra legislative session to act on a county unit primary bill designed to cut the power of E. H. Crump, head of the Shelby county (Memphis) political organization.

Sawmill Town Goes to Highest Bidder

MANNING, Texas.—(AP)—M. B. Tyre, of Lufkin, has bought this entire town.

More than 250 buildings—theaters, lodge halls, business houses and residences—are being razed for lumber.

Manning, serving almost exclusively the employees of a lumber mill, once had 1,500 inhabitants. Civic tragedies

such as fire and abandonment of railroad sent residents away.

The company decided to sell the lumber in the old buildings and look for a bidder. Tyre made the bid and bought the town.

Weather officials are pleased with the new "robot" weather meter assumed they save the expense of meteorographing stock predictions. UnFinaly—123456 7890... 123456 7890...

WAKE UP YOUR LIVER BILE

Without Calamel—And You'll Jump Out of the Morning Rut to Go

The liver should pour out two pints of fluid into your bowels daily. If it isn't flowing freely, your food doesn't digest. It just decays in the bowels. Gas builds up your stomach. You get constipated. Your whole system is poisoned and you feel sour, sick and the world looks grim. Laxatives are only makeshifts. A laxative doesn't get at the cause. It just takes those good, old Carter's Little Liver Pills to get these two pounds of bile flowing freely and make you feel "up and up" again. Ask for Carter's Little Liver Pills. Stubbly refuse anything else.

Studebaker presents 3 great new 1938 cars!

Lowest priced Commander...lowest priced President...in Studebaker history...and a great new low-priced Six!

BIG and beautiful and completely new in every vigorous flowing line, the glamorous 1938 Studebaker has come to town in all its glory.

Until you see it and drive it, you can't even begin to imagine how thrilling and different a truly modern automobile can be.

Never since Studebaker cars were first built has a small amount of money bought you so much impressive Studebaker luxury and fineness.
